# UK Data Service

The screenshot shows the UK Data Service website homepage. At the top right, there are links for 'Site Search', 'FAQ', 'Help', and 'Contact'. Below this is a navigation bar with 'About us', 'Get data', 'Use data', 'Manage data', 'Deposit data', and 'News and Events'. The main header area features the UK Data Service logo, a 'Welcome to the UK Data Service' message, and a sub-header 'Your resource for quality social research data'. A large graphic of colorful bars is on the right. Below the main header is a search bar with 'DISCOVER UK DATA SERVICE' and a 'GO' button. The search bar has radio buttons for 'Data' and 'Website'. Below the search bar are four sections: 'LATEST TWEETS' with three tweets, 'LATEST NEWS' with a bar chart and three news items, 'OUR DATA COMMUNITY' with a bar chart and two items, and 'QUICK ACCESS TO' with four buttons: 'Key data', 'Census Support', 'Information for new users', and 'Frequently asked questions'. A large pink box on the right contains the text 'Integrates ESDS, Survey Question Bank and Census.ac.uk'.

OUR DATA COMMUNITY

The UK Data Service is at the core of a network of trust that includes data owners, producers, funders and users.

Who can most benefit from the data we hold?

- Academic researchers and students
- Government analysts
- Charities and foundations

QUICK ACCESS TO

UK Data Service

# What is the UK Data Service?

- a comprehensive resource funded by the ESRC
- a single point of access to a wide range of secondary social science data
- support, training and guidance
- listen to the recorded webinars at <http://ukdataservice.ac.uk/news-and-events/newsitem/?id=3494>

---

# What does the UK Data Service do?

- Put together a **collection of the most valuable data** and enhance that over time
- **Preserve data in the long term** for future research purposes
- Make the **data and documentation** available for reuse
- **Provide data management advice** for data creators
- **Provide support** for users of the service
- Information **about the use** to which data are put
- Easy access through a **website** - [ukdataservice.ac.uk](http://ukdataservice.ac.uk)

---

# Overview service – some statistics

Holdings: data for research and teaching purposes, used in all sectors and for many different disciplines

- **7,337** datasets in the collection
- **22,551** registered users
- **60,000** downloads worldwide p.a.
- **4000+** user support queries p.a.

---

# Overview service – data sources

- Official agencies - mainly central government
- International statistical time series
- Individual academics - research grants
- Market research agencies
- Public records/historical sources
- Access to international data via links with other data archives worldwide

---

# What do users do with the data ?

- Comparative research, restudy or follow-up study
- Re-analysis/secondary analysis
- Research design and methodological advancement
- Replication of published statistics
- Teaching and learning

---

# Types of data collections

- Survey microdata
  - cross-sectional
  - Panel/ Longitudinal
  - International microdata
- Aggregate statistics
  - International macrodata
- Census data
  - Aggregate data for 1971 -2011
  - Microdata for 1991 and 2001 (2011 data are forthcoming)
- Qualitative and mixed methods data
  - in-depth interview transcripts, diaries, anthropological field notes, answers to open-ended survey questions, audio-visual recordings and images (mixed methods: combined with numeric data)

# Overview service – key data

## Government

Large-scale government funded surveys

## Longitudinal

Major UK surveys following individuals over time

## International

Multi-nation aggregate databanks and survey data

## Census

Census data 1971 - 2011

## Business

Sensitive data requiring secure access systems

## Qualitative

Range of multi-media qualitative data sources

**2011 CENSUS**

The population census is a vital resource for social scientific research and policy development, providing a snapshot of demographic and social life in the UK that helps inform government

Key data

- Data by theme
- How to access
- Secure Access
- Open access
- Explore online
- About our data
- Other providers

---

# Survey Microdata

- Individual or household level data which have been anonymised to prevent disclosure
- Needs to be analysed using an analyses package such as SPSS or Stata
- Very flexible as you can produce your own populations and tables.

---

# Large-scale UK surveys

- General Lifestyle Survey (General Household Survey)
- Labour Force Survey
- Health Survey for England/Wales/Scotland
- Living Costs and Food Survey (Expenditure and Food Survey)
- Crime Survey for England and Wales (British Crime Survey)
- Family Resources Survey
- Opinions and Lifestyle Survey (ONS Opinions Survey, ONS Omnibus Survey)
- English Housing Survey (Survey of English Housing)
- British Social Attitudes
- National Travel Survey

---

# Longitudinal data

- Longitudinal surveys involve repeated surveys of the same individuals at different points in time
- Allow researchers to analyse change at the individual level
- More complex to manage and analyse

---

# Longitudinal data

Range of longitudinal data collections, but 9 'core' collections in particular:

- National Child Development Study (NCDS)
- 1970 British Cohort Study (BCS70)
- Millennium Cohort Study (MCS)
- British Household Panel Survey (BHPS)
- Understanding Society (UKHLS)
- Families and Children Study (FACS)
- English Longitudinal Study of Ageing (ELSA)
- Longitudinal Study of Young people in England (LSYPE)
- Growing Up in Scotland (GUS)

---

# The UK Household Longitudinal Study

- Started in 2009: UKHLS or 'Understanding Society' ; First data: 2010, 3 waves so far
- Study of the socio-economic circumstances and attitudes of 100,000 individuals in 40,000 British households, largest household panel survey in the world
- UKLHS replaces and incorporates the BHPS (1991-2009 , 5500 household's), retaining the latter's longevity whilst adding
  - to the sample size
  - to the scope of the study (new components: innovation panel, greater detail on ethnic minority groups, qualitative and biomedical data collections)
- coverage includes:
  - current employment and earnings; employment status; parenting and childcare arrangements; family networks; benefit payments; political party identification; household finances; environmental behaviours; consents to administrative data linkage (health and education).

---

# International data

International data is split into two types of data:

- **Aggregate or macrodata**  
... data that has been aggregated to a country or regional level. This type of data is typically produced by inter-governmental organisations like the UN or World Bank. All the aggregate databanks contain time series data.
- **Survey or microdata**  
... data about individuals. This type of data is typically produced by an organisation in the academic sector and looks at values and attitudes.

# International macrodata

- time series data aggregated to country/region
- regularly updated
- international governmental organisations (IMF, OECD, IEA, World Bank)
- wide range of socio-economic topics
- only available to staff and students from UK institutions of higher and further education (World Bank data is open access)

---

# International data themes

Databanks cover:

- Economic performance and development
- Trade, industry and markets
- Employment
- Demography, migration and health
- Governance
- Human development
- Social expenditure
- Education
- Science and technology
- Land use and the environment

# Qualitative data

The UK Data Service collections contain examples from a range of qualitative methods including:

- interview transcripts
- visual data
- medical data
- focus groups
- essays
- diaries
- online data
- social media data
- observation notes
- documents
- audio data
- newspaper clippings

etc.

Interview transcripts are the most commonly deposited qualitative data with the UK Data Archive.

Most contemporary data is deposited in a digital form, but we also hold (and sometimes digitise) legacy data which is a paper (handwritten or typewritten) format.

---

# Qualitative data

Ray Pahl, SN 4867: [School Leavers Study](#), 1978

Teachers at a comprehensive school on the Isle of Sheppey were asked to set a particular essay to those pupils who were students in English lessons about ten days before they were due to leave school. The students were asked to imagine that they were nearing the end of their life, and that something had made them think back to the time when they left school. They were then asked to write an imaginary account of their life over the next 30 or 40 years.

**The resulting data:** 142 handwritten essays in 1978 by school leavers aged 15 and 16 years old.

## ReShare - Our self-deposit repository

Simon Deakin, SN 852349: [Labour law and poverty alleviation datasets](#)

The aim of the project was to understand the role of labour law in alleviating poverty in developing countries. The quantitative dimension of the work took the form of econometric analysis of data on legal and institutional variables. The qualitative dimension of the work consisted of interviews in the case study countries (China, Cambodia, India and South Africa). Interviewees included those with legal knowledge and experience (judges, lawyers, politicians, regulators, civil servants, labour inspectors), private-sector firm-level actors (HR and other managers), and actors in civil society (trade unions, NGOs).

Resulting data:

- a leximetric dataset coding for labour laws in 117 countries for the period 1970-2013;
- qualitative datasets based on interviews in Cambodia, China, South Africa and India;

# UK census data

- 1971-2011 census data
- gold standard
- used as baseline for other statistics
- detailed combinations of characteristics
- small geographies
- census outputs
  - Aggregate data
  - Boundary data
  - Flow data
  - Microdata
- restricted to UK higher/further education staff and students, except for the microdata

---

# Finding and accessing data

---

# Data access

- Web access to data and metadata via the UK Data Service web pages
- Documentation (codebooks, questionnaires) freely available to anyone browsing the web pages
- Data are freely available for use in higher education institutions
- Data supplied in a variety of formats
  - statistical package formats (e.g. SPSS, STATA)
  - databases and spreadsheets
  - word processed documents, PDF documents etc.

---

# Accessing data - step by step

- Click on the 'login' link on the UK Data Service homepage
- Click on 'login to the UK Data Service'
- Find your university in the list of institutions and proceed to the login page (or your UK Data Archive credentials if you are not at a UK University)
- Enter your login details
- Complete the registration form as a new user
- Accept the End User Licence
- Select the desired data from the Data Catalogue by clicking on the 'Download/Order' button
- Specify a project for which the data is to be used (minimum: 30 word description)
- Then:
  - download the data to local machine selecting your preferred format (SPSS, STATA, TAB etc.)

### Interview methods

- Qualitative interviews
- Ethical reuse
- Structured interviews
- Semi-structured interviews
- Unstructured interviews
- Feminist interviews
- Life story interviews
- Oral history
- Psychosocial interviews
- Teaching activities
- References
- Acknowledgements

### Non-interview methods

## "Illustrating interview methods using our extensive data collection"

Interviewing is a frequently used method in social research with its suitability being entirely dependent on the particular research question. Qualitative interviewing is generally distinguished from questionnaire-based interviewing, even if the form of communication, such as face-to face conversation, may be the same.

This teaching resource provides instructors and students with materials designed to assist in teaching qualitative interviewing.

The UK Data Service has created this resource to illustrate interview methods using its extensive data collection held as part of the UK Data Archive holdings, and, in particular, to assist instructors who have limited research materials of their own.
