

Answers: Licensing and Access Controls

Dataset 1

1. Open.
2. Creative Commons Attribution-ShareAlike 4.0 International.
3. N/A.

Dataset 2

1. Restricted Access.
2. Need to request access to identify licence. Access Arrangements: 'Due to the type of consent participants gave, only researchers may access the data subject to a data access agreement, and the data will be destroyed five years after the study ended, which will be 16/12/2019.'
3. Consent for long term preservation or could possibly explore retrospective consent.

Dataset 3

1. Open.
2. Creative Commons Attribution-ShareAlike 4.0 International.
3. N/A.

Dataset 4

1. Various files:
 - Embargoed – Interview transcripts.
 - Restricted – Interview transcripts.
 - Safeguarded – Interview transcripts.
2. All are under the UK Data Service End User Licence.
3. Information on the processing performed can be found under the 'Data sourcing, processing and preparation' section. Given the nature and sensitivities of the research, it would be very difficult to anonymise the transcripts to a level that they could be made open unless the participants were to consent to this.
